Why do we need your help? Because simple isn't easy.

As you read this, think about everything you have done so far today. You might have caught a bus, gone to work, or met a friend for coffee. Maybe you had an appointment somewhere new. Maybe these things involved a little bit of organising and planning, but they were probably pretty simple to get done. Now, imagine doing all these things without sight. Perhaps you would think it was all too overwhelming or frightening and not leave your house at all?

What drives us is simple: No Tasmanian should have to be alone in the dark, and we provide Guide Dogs to solve that problem.

We raise special puppies, usually Labradors, and we train them here in Tasmania to become trusted Guide Dogs for Tasmanians who are blind or have low vision.

We are the ONLY organisation doing this in Tasmania.

We believe that a person who needs a Guide Dog and is ready for a Guide Dog should have a Guide Dog. We know that our Guide Dogs give independence, safety and companionship to Tasmanians.

Simple: yes. Easy: not at all.

We need to raise more pups so we can place more Guide Dogs with the Tasmanians who are ready for them. The number of dogs we partner with Tasmanians is directly related to the donations we receive from the public. At a cost of over \$30,000 for each Guide Dog, that's over \$120,000 we have to raise to ensure the four Tasmanians who are waiting right now, can be given their independence back. Every dollar counts, and with your regular contributions, we can do it.

The goal is simple and with your help it's a little easier to achieve. Please support Guide Dogs Tasmania and help us train puppies to become heroes for the Tasmanians who need them.

Thank you.
